

REVIEW FORM

Article title	
Reviewer' name	
Academic degree and Title	
Institution/ Affiliation	
Date you received the article for reviewing	
Date you submitted the review	<i>*(within 2 weeks)</i>

Assessment Criteria	Yes / No	Remarks
The title of the article reflects the content and purpose of this article		
The abstract is meaningful, informative, and structured		
Keywords are adequate for the content of the article		
The introduction highlights the relevance of the research, contains a clearly stated goal, and reveals the methodological principles of the research (approaches, methods)		
The content of the article corresponds to the scientific topics of the journal		
The article has all the necessary structural elements		
The author's scientific argumentation is logical and convincing		
The research results are presented methodologically correctly and support the article's main provisions with arguments		
The conclusions clearly illustrate the study's results, and the author provides suggestions for future research		
The article is novel and has theoretical/practical significance for the development of the specified problem		
A literature review is sufficient for this topic		

Recommendations for the editor-in-chief (underline what is necessary):

- Publish without changes

- Publish subject to further revision of the article by the author
- Publish after significant revision of the article by the author
- Reject the article
